## Objectives

"Coleтиву Milenta Muyeres y Mocés" appeared in Asturias (northern Spain) in 1998, with the aim of fighting, within its possibilities, to transform equality between men and women from a banner into a reality.

The objectives of the collective are the following:

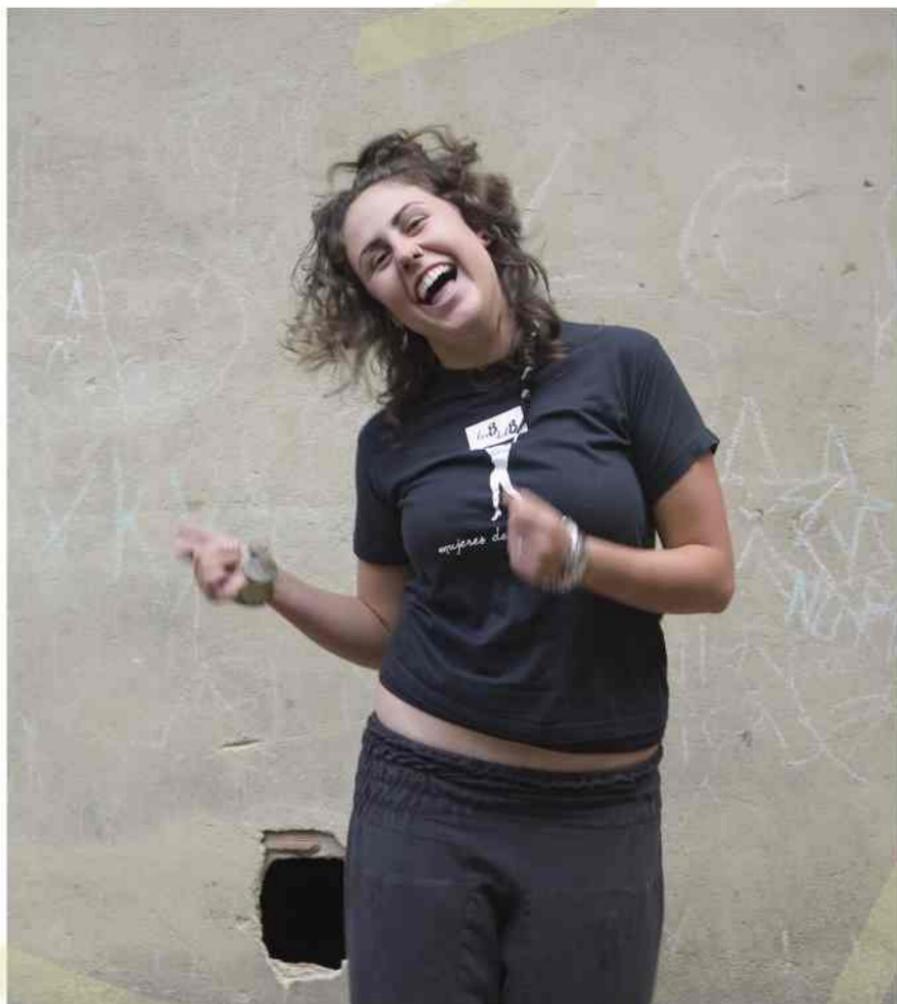

1. Promoting, supporting, and providing assistance to any form of women's association, in or outside this collective.
2. Studying the problems and combating the barriers that women may find for their full development as human beings.
3. Developing campaigns of information and vindication about women's problems.
4. Developing and encouraging activities of education, promotion and counseling for women in aspects related to networking, employment, law, etc.
5. Promoting and spreading cultural manifestations created by women.
6. Promoting, spreading, and supporting linguistic and cultural manifestations in "asturiano" (our regional language).

7. Contributing to a suitable information and education about affective and sexual issues; facilitating access to contraception; supporting women in their pregnancy or in the interruption thereof; working on other issues relevant to women's health.
8. Promoting and encouraging a non-sexist education through the development of co-educational initiatives.
9. Dignifying the image of women in the mass media.
10. Collaborating with other groups in activities that may share the aims and objectives of our collective.
11. Developing activities related to International Cooperation and to the empowerment of women in developing countries.

Our final aim is, in short, the social and cultural promotion of all women, to be achieved through reflection, political and vindicative actions, as well as informative, cultural, and divulgative activities. In the year 2000, Milenta registered as an NGO for Development, and since then it has worked with women in conflict or post-conflict areas, elaborating and implementing projects to improve their life conditions and to empower them inside their communities.

## Activities

**Information:** Our Bibliographical Resource Center offers around 800 titles about feminism; and our website ([www.milenta.org](http://www.milenta.org)) also offers various services and informs about our activities.

**Elaboration of new materials:** Research and surveys, divulgative papers, educational resources, etc. are published by our association. Some of the themes treated in these materials so far have been: images of women in the mass media, women's herstory, co-education, and gender identity, amongst others.

**Education:** Seminars, courses, workshops. Education oriented at our collective and others (internal and external activities). We promote access to information and knowledge about feminism(s).

**International Co-operation:** Together with the development of our projects in other countries, we also organize sensibilization campaigns in Asturias about the situation and ways of life of women in other parts of the globe.

## About us

Coleutivu Milenta Moces and Muyeres is an association composed by many women who fight to get the equality between men and women. In order to this, we develop numerous

activities in our territory and in other countries with which we cooperate. If you want to know more about us, visit our Web Site [WWW.MILENTA.ORG](http://WWW.MILENTA.ORG)
